**For Immediate Release:** March 26, 2020

### **Press Release: Umatilla County Coronavirus (COVID-19) Update: 4<sup>th</sup> confirmed positive case identified in Umatilla County**

Umatilla County Public Health (UCo Health) recognizes community concern surrounding COVID-19. We are working with multiple health agencies and community partners to disseminate accurate and up-to-date information.

UCo Health now reports one new positive case of COVID-19 in Umatilla County. This individual is self-isolating at home. UCo Health takes every precaution to protect an individual's health information in regards to any reportable disease, and as such, we will not be releasing any demographic information, including the town in which this individual resides. An investigation is currently underway. UCo Health has been in contact with this individual and their family. Additionally, we have reached out to all identified close contacts to provide education and guidance.

In response to Executive Order 20-12 issued Monday March 23, UCo Health Director Joseph Fiumara stated, "The purpose of the "Stay Home Save Lives" announced by Gov Brown is to limit the close interactions everyone has on a daily basis. This applies for extended family members as well as friends and acquaintances. UCo Health urges everyone to comply with the Governor's orders to help prevent the spread of COVID-19 **no matter where in Umatilla County that you live.**"

UCo Health is continuing to monitor the COVID-19 situation as it evolves. The Oregon State Public Health Lab (OSPHL) and commercial laboratories that are processing samples collected from Umatilla County residents report **all** test results to UCo Health daily. UCo Health will be providing county specific test results including the total number of tests processed on our website [www.ucohealth.net](http://www.ucohealth.net) and will update these counts regularly.

In alignment with OHA, UCo Health will be issuing press releases once per day at around 1:00pm in the event that there are new cases to report.

UCo Health would like to reiterate that we are still in the middle of a severe cold and flu season and as such, every individual with flu-like symptoms does not need to be tested for COVID-19. COVID-19 testing will be ordered at the discretion of medical providers, **not** UCo Health, after individuals with respiratory symptoms are screened to rule out other potential causes such as pneumonia or influenza.

We are asking our Umatilla County residents to please call 211 with your questions regarding COVID-19. If you are exhibiting symptoms such as fever, cough, or shortness of breath, call your primary care provider FIRST to discuss the next steps. If you are experiencing a medical emergency, call 911.

We will continue to update our Umatilla County Public Health Facebook page as new information becomes available. Please refer to the Oregon Health Authority and CDC COVID-19 websites for additional information.
